

Annual Meeting of the Trilateral Committee for Wildlife and Ecosystem Conservation and Management
Plenary Session - Self-Guided Wildlife Conservation Tour
San Diego, California
April 29, 2024

Welcome to San Diego, a city rich in biodiversity and conservation efforts. This self-guided tour will take you on a journey to explore wildlife conservation initiatives and unique natural habitats.

1. [San Diego Zoo](#)

- **Location:** 2920 Zoo Dr, San Diego, CA 92101
- **Highlights:** Explore one of the world's most famous zoos, known for its conservation efforts and diverse range of animals, including endangered species.
- **Conservation Focus:** Learn about the zoo's conservation programs and how they contribute to global wildlife preservation.

2. [Cabrillo National Monument](#)

- **Location:** 1800 Cabrillo Memorial Dr, San Diego, CA 92106
- **Highlights:** Enjoy panoramic views of the coastline, observe marine mammals like seals and sea lions, and explore tide pools.
- **Conservation Focus:** Discover coastal ecosystem conservation and preservation initiatives.

3. [Mission Trails Regional Park](#)

- **Location:** 1 Father Junipero Serra Trail, San Diego, CA 92119
- **Highlights:** Hike through diverse habitats, including chaparral and oak woodlands, and spot a variety of wildlife.
- **Conservation Focus:** Learn about conservation efforts within the park and the importance of preserving natural habitats.

4. [Safari Park](#)

- **Location:** 15500 San Pasqual Valley Rd, Escondido, CA 92027
- **Highlights:** Experience a more immersive wildlife encounter at the Safari Park, with naturalistic habitats and conservation-focused exhibits.
- **Conservation Focus:** Discover the park's breeding programs for endangered species and their efforts in wildlife conservation.

5. [Birch Aquarium at Scripps](#)

- **Location:** 2300 Expedition Way, La Jolla, CA 92037
- **Highlights:** Delve into marine conservation at the Birch Aquarium, showcasing local marine life and conservation challenges.
- **Conservation Focus:** Learn about sustainable practices and the importance of protecting marine ecosystems.

6. [Torrey Pines State Natural Reserve](#)

- **Location:** 12600 N Torrey Pines Rd, La Jolla, CA 92037

Annual Meeting of the Trilateral Committee for Wildlife and Ecosystem Conservation and Management
Plenary Session - Self-Guided Wildlife Conservation Tour
San Diego, California
April 29, 2024

- **Highlights:** Enjoy scenic hikes and discover unique plant and animal species in this coastal reserve.
- **Conservation Focus:** Explore conservation efforts to preserve rare plants and seabird habitats along the coastline.

7. Whale Watching Tours

- **Various Locations:** Several tour companies offer whale watching experiences along the San Diego coastline.
- **Highlights:** Observe whales, dolphins, and other marine life in their natural habitat during migration seasons.
- **Conservation Focus:** Learn about marine conservation efforts and the importance of protecting marine mammals.

Additional Tips:

Check for guided tours or educational programs at each location for a more in-depth experience.

Respect wildlife and follow guidelines for responsible eco-tourism.

Support conservation efforts by donating or participating in volunteer programs.

Enjoy your self-guided wildlife conservation tour in San Diego and remember to take in the beauty of nature while learning about important conservation initiatives!
