

GENERAL MEETING INFORMATION

Time and Location:

Canada will host the virtual 29th Trilateral Committee meeting from May 12-15, 2026.

Registration:

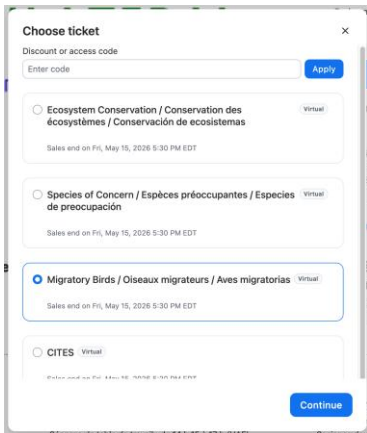

Participants (speakers and observers) must register for the Trilateral Committee meeting, unless you received an email from the ECCC technical team (via Zoom events) to register you automatically (to provide additional user rights). Please do so by visiting the Trilateral Committee website at www.trilat.org and selecting the “Register Now” button. This will bring you to the Zoom Registration Page to complete the process.

Press the “Register” Button at the upper right portion of the site.

You will be prompted to enter your email address and a verification code to proceed. An email will be sent to you with the verification code to enter.

Once verified, you'll be able to select your ticket for the event. Please select the ticket that corresponds to the working table(s) you will be participating in.

You may have received a special access code from the co-chair of your working table (the Law Enforcement working table) - this code can be entered at the top of the window.

Once the ticket is selected, press the continue button at the bottom of the window.

You will need to review your registrant information and questions to complete the registration. Once completed, press the “Confirm registration” button at the bottom.

[Confirm registration](#)

You'll receive an email with the confirmation and access link for the event.

Be sure to register no later than **May 8, 2026**.

Once you have registered, three emails will be sent to you to remind you to join: 1 week before the plenary, 1 day before the plenary, and 1 hour before the plenary, which starts the Trilateral Committee meeting.

You can join any session (except Law Enforcement which is closed) via the email links you receive or in the Zoom meeting platform (which the link in the emails you will receive brings you to). There will also be popup notifications on the Zoom Platform when sessions start.

Accessing the Virtual Platform:

Only registered participants will receive access to the Zoom events website Virtual Lobby for the Trilateral Committee meeting to view sessions. Sessions will be presented live in Zoom Meeting and all the functions of the Zoom platform will be visible, such as screen share and chat. Please follow the instructions below.

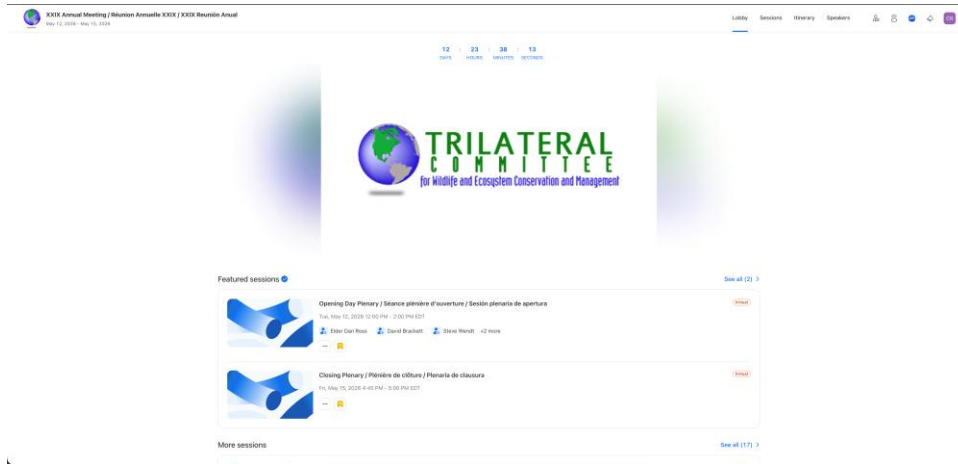

Receiving the Invitation

1. Email invites: You will receive an email with the access link to join the Trilateral Committee virtual lobby after registering. This will allow you time to enter the lobby and look around.
2. You will enter the virtual lobby by pressing the "Join" button on the email.

3. Once in the lobby, you may select different tabs to view in the top right of the screen.

GENERAL MEETING INFORMATION

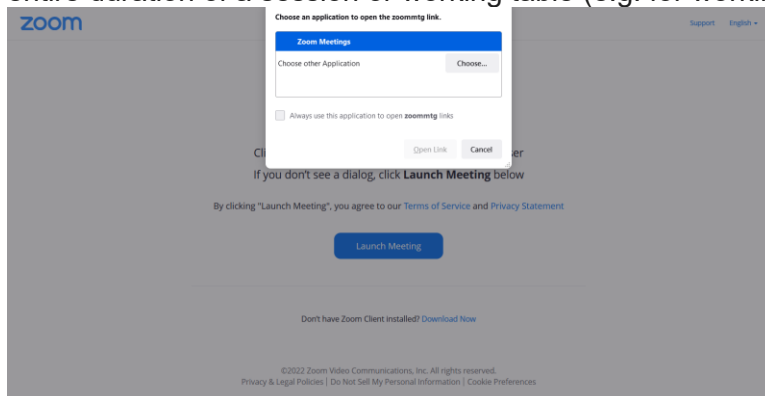

The lobby tab shows upcoming sessions that your ticket gives you access to.

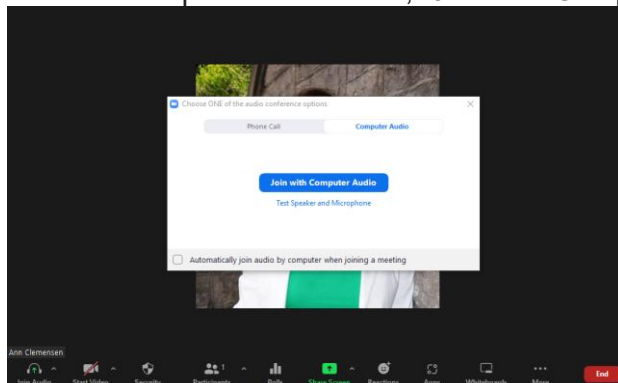

The Sessions tab shows all the sessions you have access to for the event. Clicking on them will give you more information. You may also bookmark sessions. Sessions corresponding to your ticket will already be bookmarked.

The itinerary tab will show you a calendar-style view of the week with your bookmarked sessions.

- Once a session opens, a join button will appear next to it, allowing you to connect to the Zoom meeting. Once pressed, a new browser tab will automatically open that will allow you to join the Zoom Meeting for your working table that day. You will select "open link". Note you do not need a Zoom account to join a meeting – you just need to be registered for the Trilateral Committee meeting. The link will provide access for the entire duration of a session or working table (e.g. for working tables, for the full day).

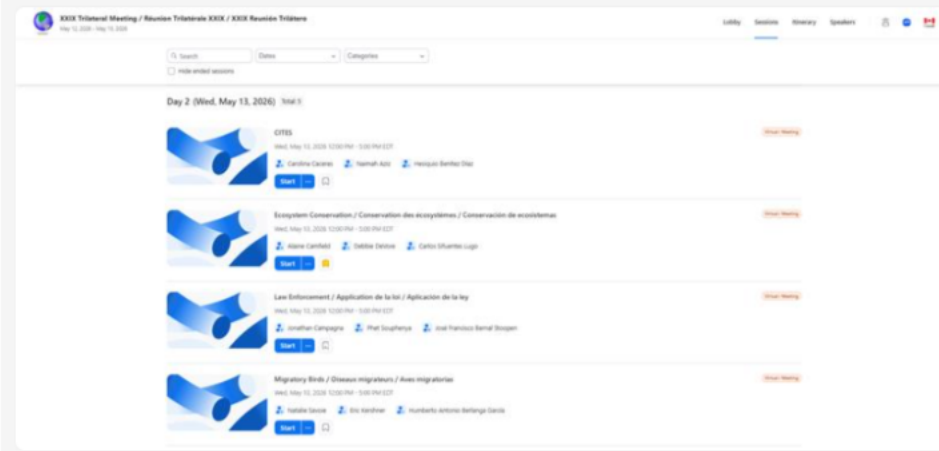

- You will then proceed to select, "Join with Computer Audio"

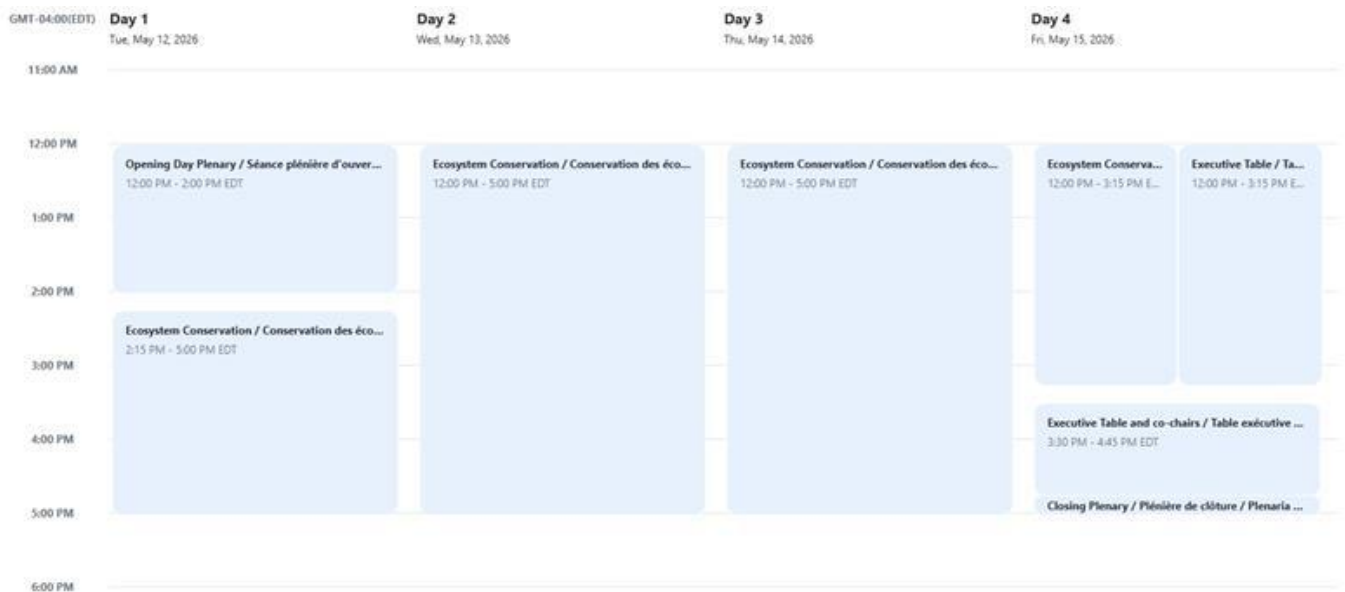

- You will then have joined the meeting and will see other participants who have also joined.

GENERAL MEETING INFORMATION

Please note, everyone has access to every session if they go in the session tab on the Zoom Platform, so even if you registered for CITES, you can still go in the Ecosystem sessions if you want to. (Excluding LEWT)

When you register, you receive a single link to access the Zoom Events Platform for the entire week. On the Platform, everyone will have a customized Itinerary that reflects which primary working table they've registered with – an example is below. When a session is scheduled to start soon, a "Join" button appears next to the session - you just need to click on that to join. The plenary is the first featured session you see when you enter the event lobby and everyone will receive an alert to join it.

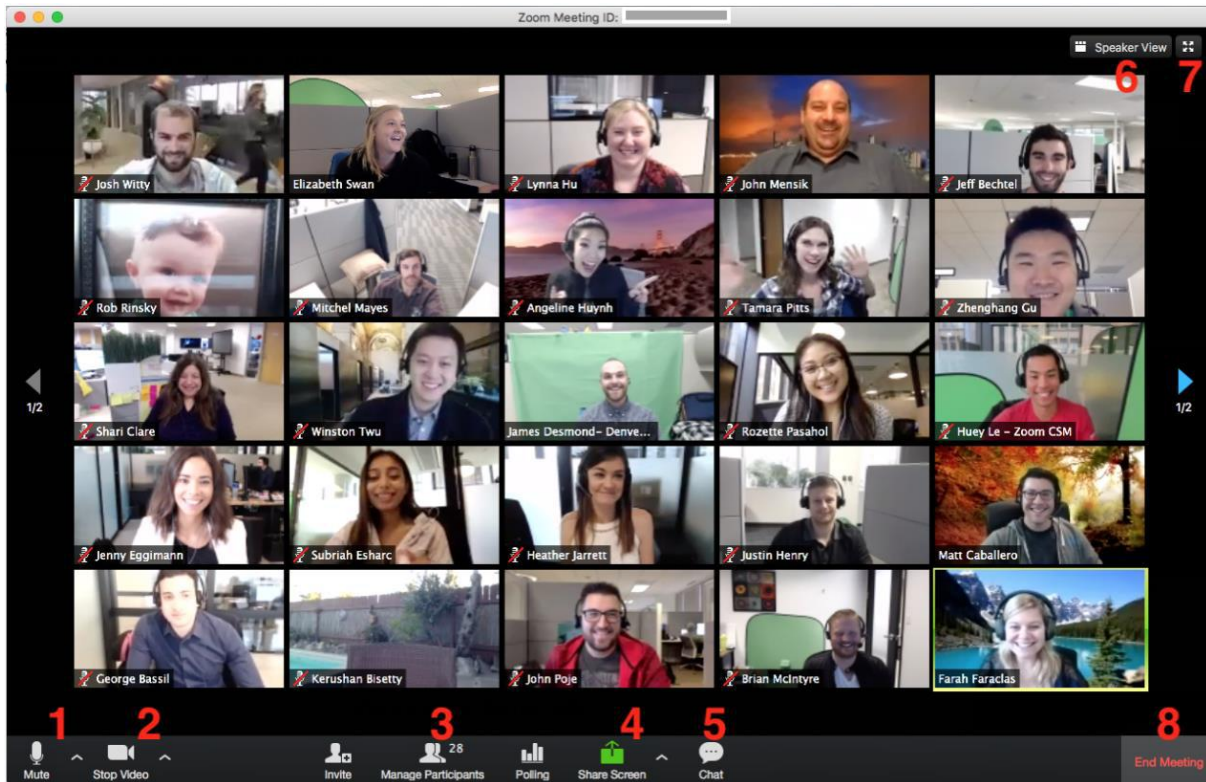

Zoom Meeting Controls

- Once in Zoom Meeting, you will see the zoom control bar at the bottom of your screen, it may look similar to the image below.
- The facilitator will call upon you when it is your turn to present. You will be asked to share your PPT presentation through the [Share Screen button](#).
- When you are ready, you will need to unmute yourself and start video so people can hear and see you.

GENERAL MEETING INFORMATION

- If you require additional help on how to use these functions, please watch this video on [participant controls](#) or refer to the number functions as indexed below.
- When you are finished presenting, you will stop sharing your screen and will need to mute yourself and turn video off so you can enjoy the rest of the presentations as a viewer.

Other Zoom controls

1. Click the microphone to mute audio. Click the ^ button to the right of the microphone icon to change other audio settings.
2. Click the camera to stop video. Click the ^ button to the right of the "Stop Video" for other video settings.
3. See the names of other people in your session. The active speaker's microphone will be green.
4. Share content. Select the entire desktop or a specific app and then click **Share** at the bottom right of that window to start sharing.
5. In-meeting chat. Allows you to send messages to others on the call – you can either send messages to 'everyone' or to one particular participant.
6. Change your video layout with options such as gallery view, which is recommended (as seen above).
7. Go full screen. Exit full screen by clicking at the top right of the screen.
8. Leave the meeting.

If you wish to watch a video on how to present and share a presentation, please [view this video](#) (10 minutes)

Interpretation:

Human-driven interpretation will be provided for the plenary, Executive Table and Law Enforcement working table. It will be available via the Zoom meeting interface itself.

AI-driven interpretation will be provided for the other working tables – Ecosystem

GENERAL MEETING INFORMATION

Conservation, CITES, Species of Common Conservation Concern and Migratory Birds.

There will be a technician for each working table – you can message them via the Zoom chat if you have any issues with the Zoom platform or AI interpretation. The technician name will appear as “Tech – ECCC”. The technician for each working table will also give a short briefing at the start of the meeting in the various functions available.

The technician for each working table using AI-driven interpretation will provide a direct link for the AI-driven interpretation during the meeting via the Zoom chat – the link will open a separate window / website for AI interpretation, where you can choose your preferred language by clicking on a menu at the top left of the screen. All the meeting discussion will then be transcribed into the language of your choice via text.

(Language Selection)

(Audio Text-to-speech) (More Options)

You may activate text-to-speech functionality by clicking the yellow speaker icon at the top right of the website. This will provide an auditory narration of the transcript when a language other than your currently selected language is spoken. There is a slight delay when using this feature.

You can access the AI interpretation by using the following link :

<https://simo.canoeinterpretation.com/>

And entering one of the following room codes :

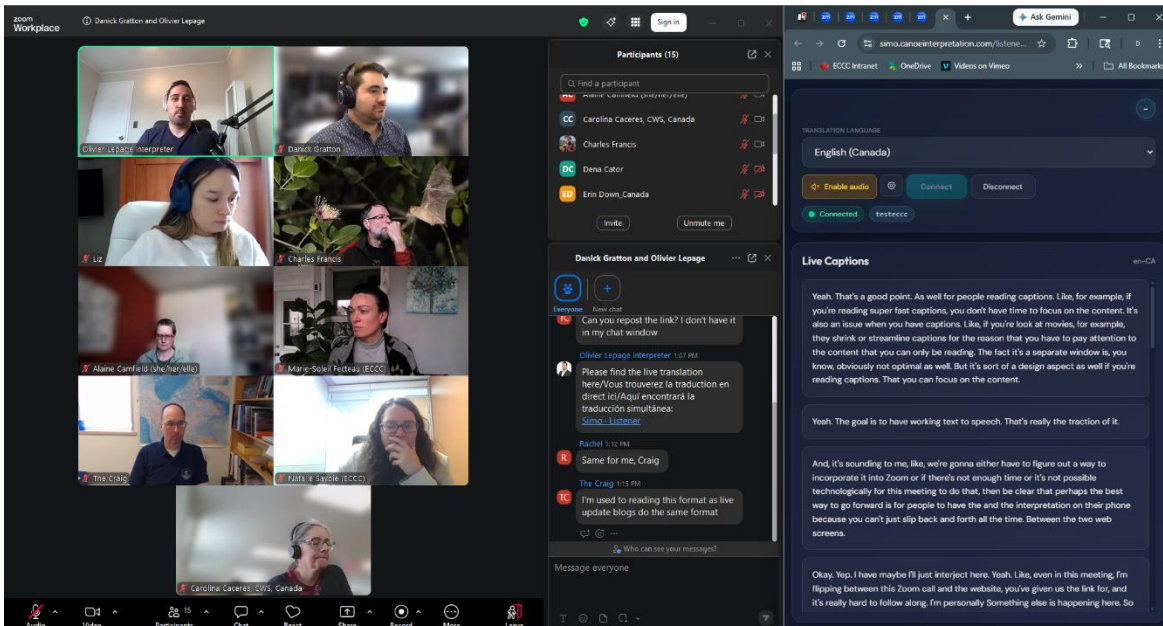

Ecosystems Working Table - **Eco2026**

Migratory Birds Working Table - **Birds26**

CITES Working Table - **Cites26**

Species at Risk Working Table - **SAR2026**

Because the AI-interpretation window is separate to Zoom, you can place the zoom meeting page and AI-interpretation page side by side to see both at the same time, such as below:

GENERAL MEETING INFORMATION

Virtual Event - Best Practices:

Here are tips to follow for the best virtual experience:

1. **Test Your Technology** – Make sure your microphone, audio camera/video, Wi-Fi and screen-sharing features (if presenting) are functioning properly.
2. **Practice speaking to the camera** – Speak slowly and allow regular pauses, in particular since the AI-driven interpretation works best with pauses.
3. **Mute yourself** – Mute your microphone or phone upon entry and when not speaking.
4. **Minimize Distractions** - Silence your phone and avoid extraneous movements.
5. **Chat feature** – Use the chat feature for comments, questions and items that come to mind but do not pertain to the immediate conversation.
